KEVIN O'NEILL

Japanese Characters in Desktop and SharePoint Explorer Views

The following was done on a local desktop Windows XP so that Japanese characters could be seen when a file was on a desktop as well as viewable in SharePoint under explorer view:

Double click Regional and Language Options:

		- Li 0-1/	Contractor quictant
	Regional an	nd Language Options	Customize settings
Click the Languages tab:			
Re	gional and Lan	guage Options	? ×
F	Regional Option	Languages	
	- Standards and		
	This option affects how some programs format numbers, currencies, dates, and time.		
	Select an item to match its preferences, or click Customize to choose your own formats:		
	English (Unite	ed States) 🔽 Cus	tomize
	Samples		
	Number:	123,456,789.00	
	Currency:	\$123,456,789.00	
	Time:	11:33:35 AM	
	Short date:	04/01/2011	
	Long date: Friday, April 01, 2011		
Location			
	To help services provide you with local information, such as news and weather, select your present location:		
	United States		
OK Cancel Apply			
WEBSITE: <u>HTTP://WWW.KMO.NAME</u>			
E-MAIL: <u>Oneillwebsite@verizon.net</u> use all commands at own risk			

Under the Supplemental language support -> select Install files for East Asian languages:

Supplemental language support
Most languages are installed by default. To install additional languages, select the appropriate check box below.
Install files for complex script and right-to-left languages (including

Thai)

🔽 Install files for East Asian languages

The PC will update some files – then prompt for a reboot. Once rebooted then files can be downloaded to a desktop or can be viewed in explorer view of SharePoint with the character sets intact. In SharePoints case – explorer view uses the native desktop functionality available.
