

# KEVIN O'NEILL

## Axceler ControlPoint 4.5 HTTP Error 503. The service is unavailable.

### When Launching ControlPoint

### The following error was displayed:

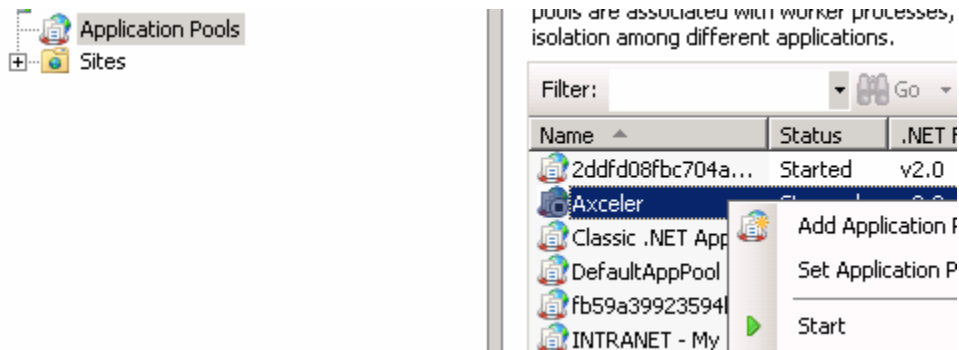

### Service Unavailable

HTTP Error 503. The service is unavailable.

To remedy – go to IIS:

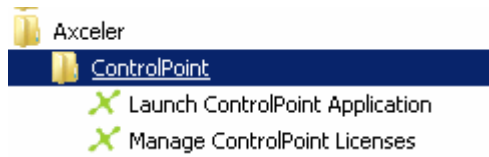

Start -> Run -> inetmgr

Access the Application Pools – right mouse click Axceler then select Start:

# KEVIN O'NEILL

Relaunch ControlPoint and it will open:
